REFORM UK

BROOK DIVISION — OCTOBER 2026 NEWSLETTER

Report from your County Councillor

Christopher Hudson | Suffolk County Council | Reform UK

Dear Parish Councillors and Residents,

As your County Councillor for **Brook Division, formerly Belstead Brook**, I am committed to representing our communities, listening to parish councils and pressing for practical improvements across our villages, including Elmsett, Aldham, Belstead, Hintlesham, Chattisham, Burstall, Copdock and Washbrook, Sproughton and Pinewood.

OUR PRIORITIES THIS OCTOBER

1. Protecting our countryside — National Grid pylons

The proposed Norwich-to-Tilbury electricity transmission scheme remains a major concern, particularly for Aldham and surrounding communities. I will continue to press for proper consideration of the impact on our landscape, heritage and residents, and for alternatives to overhead pylons to be fully assessed.

2. Roads, potholes and rural transport

Road conditions and road safety remain important issues for our villages. I will continue to press for effective, lasting pothole repairs, better highway maintenance and appropriate action on speeding and dangerous roads. I also recognise the importance of reliable bus services for residents who depend on public transport.

3. Flooding, drainage and development

New development must be supported by adequate infrastructure. I will press the relevant authorities to address drainage concerns, scrutinise the impact of development and ensure that highway safety and flood risks receive proper consideration.

4. Responsible spending and council accountability

Residents deserve value for money from every pound of public expenditure. I will continue to scrutinise spending, challenge unnecessary costs and seek practical improvements to local services.

5. Stronger parish partnerships

Parish councils are essential partners in identifying local problems and finding solutions. I want to strengthen communication between parish representatives and Suffolk County Council, ensuring that concerns are properly recorded, directed to the responsible authority and followed up.

YOUR LOCAL ISSUES MATTER

I welcome correspondence from parish councils and residents about highways, flooding, transport, public services and other matters within the County Council's responsibilities. Where an issue falls under Babergh District Council, another public body or a statutory agency, I will seek to identify the appropriate route for action.

My commitment is straightforward: **to listen, to challenge, to follow through and to report back.**

Thank you for your continued work in supporting our local communities.

Yours sincerely,

Christopher Hudson
County Councillor, Brook Division
